SWAMY SASWATHIKANANDA COLLEGE, POOTHOTTA

August 2022 - April 2025

Bachelor of Computer Application

PROJECTS

Wehire - Job Portal | PHP, MySQL August 2022 - April 2025

- Designed and developed a dynamic web-based job portal allowing job seekers to register, search, apply for jobs, and build resumes.
- Integrated resume attachment, job filtering, and search functionality across job titles, company names, and skills.
- Implemented job posting and management system for employers with real-time updates and application tracking.
- Enabled profile management, resume upload/download, and company-user messaging through PHP and MySQL backend.

ReadyGo - Cab Booking platform with Real Time Location Tracking | Python, MySQL

- Developed a web application for cab booking and real-time location tracking, tailored for users, drivers, and admins.
- Integrated multiple ride types including Economy, Luxury, Bike, XL, and Delivery Services.
- Implemented driver registration, ride request management, and admin approval workflow using Django models and views.
- Designed a mobile-friendly UI and incorporated role-based access for efficient booking, ride status updates, and ride history viewing.
